                                                            7
 7
       DR. HOWELL: Oh, yeah. I've been -- I
                                                               one that does all the work. We just maybe
 8
    was born in Alabama. I've been a resident
                                                            8
                                                               mention it or something. We appreciate
                                                            9
                                                               you being here. She does a great job.
    of Jackson County for over 30 years.
 9
10
       CHAIRMAN BLANKENSHIP: Well, good to
                                                           10
                                                               And everybody -- I've had several people
    have you on the Board.
                                                           11
                                                               to ask me where the biscuits come from.
11
12
          I would also like to express my
                                                           12
                                                               They're at the second exit at the Shell
    appreciation for Mayor McLendon for
                                                           13
                                                               station. Please stop by and get some.
13
    hosting us here in Greenville and
                                                           14
                                                               That way, I get some tax revenue, so --
14
                                                               but we appreciate it. We appreciate
    providing refreshments and breakfast this
                                                           15
15
    morning. You know, it's a good way to
                                                           16
                                                               working with y'all. We're very excited
16
    keep us coming to Greenville is to feed
                                                           17
                                                               about the property and the things that are

                                                               let you know that Greenville, Alabama,
                                                            6
 7
    Department and for your forward leadership
                                                            7
                                                               wants to be a part of it.
 8
    for your city here.
                                                            8
                                                                      Thank you.
       MAYOR MCLENDON: Thank you.
                                                            q
                                                                   CHAIRMAN BLANKENSHIP: Thank you,
 9
       CHAIRMAN BLANKENSHIP: Always glad to
                                                               ma'am. Thank you so much for breakfast.
10
                                                           10
                                                               It was delicious. I like stop at that
    be back in Greenville. And want to thank
11
                                                           11
                                                               Shell station too. It smells like
    the Lurleen B. Wallace Community College
                                                           12
12
    for allowing us to use their facility
                                                           13
                                                               barbecue in there every time. It makes
13
    here. It's a very nice place to meet. I
                                                               you hungry every time you stop in there.
14
                                                           14
    think we have found us some new partners
                                                           15
                                                                      So now we'll move to the public
15
    with the two-year college system to host
                                                           16
                                                               comment portion of the meeting. We only
16
                                                           17
17
    meetings around the state as they have
                                                               have two speakers that have signed up so
    great facilities, and it's good for us I
                                                               far this morning. If you would like to
18
                                                           18
    think to go to some of the different parts
                                                           19
                                                               speak and you have not had the opportunity
19
    of the state that maybe we have not had an
                                                               to fill out one of the green slips, if
20
                                                           20
    opportunity to meet in in several years.
                                                           21
                                                               you'll just see Patti. That will be fine.
21
          I don't know of any other special
                                                           22
                                                                      But we'll start with Mr. Charles
22
                                                           23
                                                               Yeager. He wants to talk about the Turkey
    quests here.
23
```

1	9 Creek Nature Preserve. I don't have a tab	1	partnered with Forever Wild to provide	11
2	for that one. It's just I think he's	2	on-site management of the preserve and	
3	going to provide us something or talk	3	environmental education programs. So as a	
4	about the preserve.	4	nonprofit, we have quite a few challenges.	
5	-	5		
	MR. YEAGER: Good morning. Thank you		We are not financially supported by	
6 7	so much for having me. My name is Charles	6	Birmingham Southern. We do get some	
	Yeager, and I have the honor of managing		support from the City of Pinson, but we	
8	the Turkey Creek Nature Preserve. I've	8	certainly have a lot of challenges. And a	
9	been there now for almost ten years. It's	9	lot of our funding comes from fund-raising	
10	a Forever Wild tract.	10	events and education programs. Of course,	
11	In the past, I have made a point	11	this last year, those were nonexistent.	
12	to try to visit you guys about once a year	12	This year those things are getting	
13	or so to provide an update, and I haven't	13	better. We have had about 1500 students	
14	done that in the last couple of year so I	14	come through our programs this year.	
15	apologize for that. But I think it's	15	We've had a number of workshops and other	
16	really important to share some of the	16	educational events.	
17	activities that are going on at the	17	One of the big new things at the	
18	preserve and maybe some of the benefits	18	preserve is we have added a new education	
19	that our partnership has provided to the	19	facility. It's actually a pavilion, which	
20	community.	20	I think is really kind of a little	
21	For those of you that are not	21	misleading. It's more than it's a lot	
22	familiar, the Turkey Creek Nature Preserve	22	more than a pavilion. It's an incredible	
23	is located in Pinson, Alabama. It is a	23	structure. It holds about 120 folks. And	
ľ	10	1 1		12

And I think that	12
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	466-acre tract that is part of the Forever Wild program. It is an incredibly popular spot for hiking. We have seven miles of hiking and biking trails. It has been rated as one of the top swimming holes in the state. It's actually the falls have been ranked as one of the top natural water slides in the country. We also have a lot of folks that come out for fishing and various other outdoor pursuits. We have about 130,000 folks that come out every year, which has steadily increased as people have become aware of the preserve. We are just north of Birmingham, and so there's quite a few folks nearby. And we have a lot of folks	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	restrooms and a lot of flexibility in how we can use that space for workshops or weddings or other events of that nature. And so it's already getting used quite a bit. It was about a million-dollar project, and we're real excited to be finished with that at this point earlier this year. Now, one of the big challenges that we have is since we are a nonprofit and all of our money really all of our operational funds does come from fund- raising, we, you know, need as much support as we can. And I think that there's been a recent report that came out	12

          I just wanted to go over some of
                                                            11
    the correspondence that I've had with some
                                                            12
                                                                Gilbert. And I did speak with the
12
13
    of the people in the area about the
                                                            13
                                                                district commissioner, County Commissioner
    Natural Bridge Park that Patti -- and she
                                                                David Coleman, and he did want to offer
14
                                                            14
    had mentioned to me that Mr. Blankenship
                                                                his support in any way possible, because
15
                                                            15
    and the Board had questions too.
                                                            16
                                                                Patti and I had discussed the fact that
16
                                                            17
17
          First, I will say that
                                                                there may be -- it may become necessary to
    Representative Estes had planned to be
                                                                remove some of the structures that are
18
                                                           18
    here. He telephoned me last night, and
                                                            19
                                                                there. That community center being one.
19
    his session began this morning at the same
                                                                And he would offer his support in that.
20
                                                           20
    time so he was unable to come. But he did
                                                            21
                                                                And did go as far as to meet with Pace
21
    want me to relay the message that
                                                            22
                                                                Industries, Mr. Bass, and they offered
22
                                                           23
                                                                support also, any kind of removal that he
    yesterday in their session they did pass
23

    Commissioner thinks is the best way. But
                                                            1
                                                                   CHAIRMAN BLANKENSHIP: Mr. Oates?
1
                                                             2
2
    I don't know how you generate revenue to
                                                                   MR. OATES: Aye.
    operate that park. It sounds like the
                                                                   CHAIRMAN BLANKENSHIP: Dr. Powers?
                                                             3
3
   preserve -- the Turkey Creek Preserve does
                                                                   DR. POWERS: Ave.
                                                             4
4
5
    not charge. I don't know if that's
                                                             5
                                                                   CHAIRMAN BLANKENSHIP:
    because that's their model or if there's
                                                             6
                                                               Mr. Satterfield?
6
                                                             7
7
    some prohibition on Forever Wild land,
                                                                   MR. SATTERFIELD: Aye.
8
                                                            8
                                                                   CHAIRMAN BLANKENSHIP: Dr. Valentine?
    so...
       CHAIRMAN BLANKENSHIP: Any comments?
9
                                                            9
                                                                   DR. VALENTINE: Aye.
10
          Thank you, ma'am.
                                                            10
                                                                   CHAIRMAN BLANKENSHIP: Mr. Wright?
          Is there anybody else that wanted
                                                            11
                                                                   MR. WRIGHT: Aye.
11
                                                                   CHAIRMAN BLANKENSHIP: Dr. Saloom?
12
    to speak that didn't have the opportunity
                                                            12
    to sign up?
                                                            13
                                                                   DR. SALOOM: Aye.
13
          Seeing no rush to the microphone,
                                                            14
                                                                   CHAIRMAN BLANKENSHIP: Thank you.
14
                                                                      So we will now -- it is 10:19. We
    we will move to recess to executive
                                                            15
15
    session.
                                                            16
                                                                will be in executive session for
16
          By regulation, appraised values
                                                            17
                                                                approximately 20, 25 minutes, and we'll
17
    are confidential during periods of
                                                           18
                                                                return.
18
    negotiation. Accordingly, in order to
                                                            19
                                                                              (Recess from 10:19 a.m. to
19
    discuss tract appraisal values, the Board

                                                                              10:36 a.m.)
                                                                   CHAIRMAN BLANKENSHIP: Welcome back.
    will need to go into recess for an
                                                           21
21
22
    executive session.
                                                            22
                                                                We're now returning from executive
23
          Is there a motion for the Board to
                                                            2.3
                                                                session. It is 10:36. We're back in our
                                                       22
                                                                                                                   24
   now recess to an executive session?
                                                            1
                                                               regular Forever Wild Board meeting
1
2
       DR. NEUMANN: Motion.
                                                            2
                                                                session. I think we're now in Tab 5, the
3
       CHAIRMAN BLANKENSHIP: Moved by
                                                            3
                                                                program status report.
4
    Dr. Neumann.
                                                             4
                                                                   MS. MCCURDY: Tab 2, financial.
                                                                   CHAIRMAN BLANKENSHIP: Agenda item
5
          Is there a second?
                                                            5
       MR. JONES: Second.
6
                                                               number 5, program status report.
                                                             6
7
       CHAIRMAN BLANKENSHIP: Seconded by
                                                            7
                                                                      Ms. McCurdy?
                                                                   MS. MCCURDY: And so if you'll turn --
8
   Mr. Jones.
                                                            8
                                                            9
                                                                am I too loud? I feel like I'm -- y'all
9
          As I call your name, please state
    your position on this motion to recess.
                                                            10
10
                                                                okay?
11
    Those in favor please say aye, and those
                                                            11
                                                                   MR. CHILDERS: Not for me.
                                                                   CHAIRMAN BLANKENSHIP: I'd rather hear
    opposed indicate by saying no.
                                                            12
12
13
          Chris Blankenship, yes.
                                                            13
                                                               you than not.
          Mr. Childers?
                                                                   MS. MCCURDY: I'm not too sure I've
14
                                                            14
       MR. CHILDERS: Aye.
                                                            15
                                                                ever been told I'm too quiet, but do speak
15
       CHAIRMAN BLANKENSHIP: Mr. Holloway?
                                                                up if I blast you out of the room.
16
                                                            16
                                                                      All right. For the Board, we're
                                                            17
       MR. HOLLOWAY: Aye.
17
       CHAIRMAN BLANKENSHIP: Dr. Howell?
                                                                in Tab 2. Your green folder contains some

1	25 financial status of the program, the	1	are holding the tract as unavailable until	27
2	properties that are in closing process,	2	well after November 1st is when they've	
3	therefore, we encumber the associated	3	informed us. They are looking further	
4	amount, and I try to tell you what your	4	into their view of valuation of the	
5	available balance is for further action on	5	property and have some questions about the	
6	additional tracts.	6	appraised value from the program compared	
7	So the current cash balance in the	7	to the county tax assessments, which were	
8	account is approximately 27.3 million. By	8	higher for the property. We're continuing	
9	the time that I subtract the current	9	discussions with that landowner, but that	
10	tracts we've been directed by the Board to	10	one the future of that one, I'm	
11	close, and those include Oak Mountain	11	uncertain of right now.	
12	State Park-Belcher Lake Addition;	12	Also, the Red Hills-Parris Trust	
13	Cedar Creek SOA Addition, Dallas County,	13	Addition, as the Board might recall, that	
14	and obviously Oak Mountain was in	14	one was delayed for a little while because	
15	Shelby County. We have the Coldwater	15	of some additional action that was needed	
16	Mountain-McVey Addition, Calhoun County;	16	to clarify the signatory authority of the	
17	and the Red Hills-Parris Trust Addition,	17	trust entity. That has been fully	
18	Monroe County, subtracting the encumbered	18	resolved, but in the interim, the	
19	amounts for those from the acquisition	19	landowners did proceed with the harvest of	
20	of those properties and also the	20	timber post the appraisal that we did on	
21	15 percent of appraised value that is	21	the property. We were not aware of that	
22	transferred into the Stewardship Account	22	at the time. So we are going to need to	
23	for each acquisition, taking all that into	23	revisit the appraised value of that tract	
5		i i		
	26			28
1	account and subtracting that from the cash	1	to give the Board an actual valuation, and	28
1 2		1 2	to give the Board an actual valuation, and we'll be coming back to the Board for	28
	account and subtracting that from the cash		-	28
2	account and subtracting that from the cash balance, you have an unencumbered balance	2	we'll be coming back to the Board for	28
2 3	account and subtracting that from the cash balance, you have an unencumbered balance of approximately 11 million. That	2 3	we'll be coming back to the Board for further direction on that one. But the	28
2 3 4	account and subtracting that from the cash balance, you have an unencumbered balance of approximately 11 million. That 11 million is within the capital spending	2 3 4	we'll be coming back to the Board for further direction on that one. But the additional appraisal was work was	28
2 3 4 5	account and subtracting that from the cash balance, you have an unencumbered balance of approximately 11 million. MCCURDY: I believe those were more related to appraisal value. You know, the Board doesn't exceed appraised value. In the private sector, sometimes negotiations continue past that. We have not. But we have in the past on occasion had a landowner who simply decided they do not want to transfer the property. But these were, I believe, both value issues. But we've had just changed minds in the past also. All right. If there are no additional questions and y'all please speak up if I don't see your hand go up we'll be looking at Tab 2b. You have a	
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	CHAIRMAN BLANKENSHIP: Just for the Board's information, we get regular deposits four times a year, the 3.75 million dollar generally four times a year on the in the first month of each quarter, just for your information moving forward. Now, we also have other deposits into the account throughout the year that go from car tags or other things, but those are the four major deposits. DR. VALENTINE: I just couldn't tell if CHAIRMAN BLANKENSHIP: Sure, sure. So we should have another deposit of 3.75 million before our meeting in February. MS. MCCURDY: And so I wanted since	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	MS. MCCURDY: I believe those were more related to appraisal value. You know, the Board doesn't exceed appraised value. document, the map, it has the Perdido 1 managed by the Department, open for 1 2 2 Wildlife Management Area. That's about hunting beginning this year. 3 3 17,000 acres of property that's joint The property just above that, the State Lands, Forever Wild, and other Blackwater North property, it has a GOMESA 4 4 5 property that's part of that Wildlife 5 2020. That was funding from the Gulf of 6 Management Area. That's in the -- kind of 6 Mexico Energy Security Act that comes to 7 in the northern part of Perry County. If 7 the state. The governor provided funds to 8 you look at the very bottom of the map 8 purchase that 1300 acres there with GOMESA 9 where it has Forever Wild WMA, that is the funds. 9 As you move up, the Wetlands Lillian Swamp Forever Wild property and 10 10 wildlife management that's at the mouth of 11 Grant, where it says Wetlands Grant 2021, 11 that is the Styx River nomination. That 12 the Perdido River where it empties out 12 into Perdido Bay. So those are two large 13 is just right there just south of 13 blocks that we already own and manage in 14 Highway 90. Just above Highway 90 -- it 14 goes from Highway 90 to I-10 -- there is the Department of Conservation. The goal 15 15 for the Department is to try and link a -- it says Federal Restore. Those are 16 16 those two large areas together so that we 17 funds that -- I serve as the governor's 17 will have a huge wildlife corridor all 18 designee to the Federal Restore Council 18 19 along most all of the Perdido River. 19 for the Deep Water Horizon oil spill. 20 We've been very successful at 20 That was a project that has been funded by obtaining funding from multiple sources to Federal Restore, and that property, we 21 21 22 do acquisitions in that corridor. We 22 have a purchase agreement in place and 23 actually have eight different funding 2.3 that is in the process of closing about 42 1 sources that I'll go over shortly that 1 2600 acres along that corridor that will 2 we've been able to cobble together to 2 be hopefully closed before the end of this 3 acquire property or the process of 3 year or right after the first of next 4 acquiring property. 4 vear. 5 5 So if you go up from the bottom And then the area just above I-10 where the Forever Wild WMA Lillian Swamp 6 where you see those two areas that say 6 7 property is, there's a purple block that's 7 NRDA funding approval, that is two parcels 8 there. That's a mitigation bank. Wetland 8 of property that have been approved 9 Solutions and DOT have a mitigation bank 9 through the Natural Resource Damage there. We have not acquired that, but 10 10 Assessment Restoration Plan process. The 11 that is already set aside for -- not to be 11 funding for that has been approved, and we developed. 12 are in negotiations with the landowner to 12 13 The next piece that has the red 13 acquire those properties. around it, that's the Forever Wild So I would say looking at the map 14 14 National Fish & Wildlife Foundation 15 you can see that as the Department's 15 Blackwater South property. If you'll 16 vision has worked over the last two years, 16 recall, that was a project that the Board 17 we've been very successful at trying to 17 funded in 2019. Forever Wild Land Trust cobble together funding and acquisition 18 18 provided some of the funding, and the 19 opportunities to put together what would 19 National Fish & Wildlife Foundation be really a spectacular stretch of 2.0 20 undeveloped property along the Perdido provided the majority of the other 21 21 funding. It's about 2400 acres in that 22 River almost from the headwaters all the 22 block. That's closed now and is being 23 way to Perdido Bay. 23

1	53 Horizon section have all worked together	1	Landing SOA-Donald Addition. That is	55
2	to implement this, and we will manage it	2	another short list nomination. The page	
3	cooperatively as a department.	3	number for that is 4b, page 27. Again,	
4	So I appreciate the opportunity to	4	Portland Landing SOA-Donald Addition, 4b,	
5	take a little bit of time just to share	5	page 27. That would be the standard fee	
6	this work because I think it's important	6	simple acquisition 75/25 with the deeds	
7	for you to see that the acquisitions that	7	being held proportionally to acreage	
8	you've made both in the WMA previously and	8	valuation by Forever Wild and Wildlife.	
		9	-	
9	in the Lillian Swamp WMA as well as that		But I'm going to ask Keith to come up and,	
10	Blackwater property, how it fits into the	10	one, give you some additional information	
11	big picture of the management for the	11	and be available for questions from the	
12	Department.	12	Board on those two offers of PRM.	
13	Thank you for letting me take that	13	MR. GAULDIN: Thank you. Good	
14	time.	14	morning. Thanks for the continued	
15	MS. MCCURDY: Thank you, Commissioner.	15	partnership we've had, and I think we have	
16	I would we'll now move into	16	a really good model going for us utilizing	
17	what we call the leveraging opportunities,	17	our 75 percent Pittman-Robertson funds	
18	which the one we have available for	18	matched those 25 percent Forever Wild	
19	discussion right now, actually two	19	funds. We'd like to continue that model	
20	opportunities that and Chuck Sykes	20	in future acquisitions as well.	
21	could not be here today, but Keith Gauldin	21	And I don't see the mayor. I	
22	with the Wildlife & Freshwater Fisheries	22	think he's already left, but I just wanted	
23	Division I asked Keith to come up and	23	to extend our gratitude to him. You know,

There's also a Tab 5 memo with some additional information, Tab 5g, that relates back to discussions from our last meeting. The second PR leveraging</pre>	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	on in September and October sort of under the gun to try to get to that ready for hunting season, and he and his staff really worked with us and supported us. And, frankly, it would have been a little bit hard to do without his support, so we really appreciate his cooperation and support of the program. I couldn't ask for a better partner than what he's provided. Typically in the past we've looked at land acquisitions, and this time we're talking about leasing land. In the past we've lost Boyd Wildlife Management area it was 18,000 acres in 2015. 2016, we lost Scotch, and that was 19,000 acres. That's in southwest Alabama. And we're talking about the Falling Rock Addition or the Falling Rock Tract WMA and Cahaba River Wildlife Management Area	

1	57 portion that we have in our WMA system is	1	MR. JONES: So we could adopt the	59
2	Sam Martin Murphy. We're looking at in	2	appraisals that they have?	
3	talking with those landowners, there's the	3	MS. MCCURDY: Yeah. We would have to	
4	Sam Murphy family. They own about 95	4	review them and there would be a little	
5	percent of that WMA. The Ogden family	5	bit of a process, but, yes, that would be	
6	owns a little bit less, probably well,	6		
7		7	an option available to the Board. CHAIRMAN BLANKENSHIP: Mr. Wright?	
	a lot less actually, probably a thousand			
8	acres of a 16,000-acre WMA. So we'd like	8	MR. WRIGHT: I'm looking at the map,	
9	to talk with them to explore some lease	9	and see these are in these properties	
10	opportunities with those as well. And	10	that are in question are sort of polka	
11	that really, really accentuates the need	11	dotted in the WMA system.	
12	for this type of partnership to lease	12	MR. GAULDIN: Yes, sir.	
13	those lands. And we're not looking at	13	MR. WRIGHT: If you do not get a lease	
14	trying to find new lands to lease to	14	on them, is that going to cause a lot of	
15	incorporate for our WMA system. We're	15	problems?	
16	just simply trying to keep what we have.	16	MR. GAULDIN: Yes, sir.	
17	We have RETs and TMOs and private	17	MR. WRIGHT: After so many years?	
18	landowners that have to answer to	18	MR. GAULDIN: Yes, sir. A lot of	
19	shareholders, they have to answer to	19	property lines that we have to redo are	
20	family members. Those original family	20	MR. WRIGHT: How would you do that? I	
21	members have had kids. Those kids have	21	mean, would you go in there and mark the	
22	had kids. So they have to have some type	22	property line around these areas? And	
23	of revenue stream off these properties.	23	what about hunting season for this year	
l				
1	58 I'd be wanting to have the same thing if	1	since it's right on top of us?	60
2	it was my property. And instead of the	2	MR. GAULDIN: Well, we have this year	
3	acquisition, we're asking for support from	3	secured.	
4	Forever Wild on the 25 percent/75 percent	4	MR. WRIGHT: You've got this year	
5	model doing a lease of this tract, and	5	secured, so we're really talking about	
6	hopefully do the same with Sam Murphy in	6	next year and	
7	the future as well.	7	MR. GAULDIN: Right.	
8		8	MR. WRIGHT: And also is this a	
	Any questions?			
9	CHAIRMAN BLANKENSHIP: Mr. Jones?	9	corporate land management company working	
10	MR. JONES: Keith, would this do we	10	for a corporate land ownership company?	
11	know the cost? Do we have to get an	11	MR. GAULDIN: Well, this tract is	
12	appraisal on that?	12	owned by Hancock.	
13	MR. GAULDIN: We have those costs	13	MR. WRIGHT: And they're doing the	
14	already. We've actually utilized the	14	management themself?	
15	lease values as State match for our PR	15	MR. GAULDIN: Timber management, yes,	
16	opportunities to get a match to those as	16	sir.	
17	well.	17	CHAIRMAN BLANKENSHIP: Mr. Jones?	
18	MS. MCCURDY: But I think	18	MR. JONES: Sorry. I'm going to go	
19	programmatically I mean, I don't have any	19	back to the appraisal. You said you had	
20		20	those costs. Just to get an idea I	
	appraisal work that Wildlife might have			
21	appraisal work that Wildlife might have right now, but we would need to obtain	21	know that still has to be approved and	
21 22			know that still has to be approved and looked at by our staff but what I	
	right now, but we would need to obtain	21		

	61	1 Г		6.2
1	61 talking about?	1	by other TMOs and RETs that are in that	63
2	MR. GAULDIN: We tried to work with	2	WMA system. That consists of seven	
3	them to do a ten-year option on this lease	3	different landowners, so it's not a whole	
4	and the total acre I mean the total	4	lot left after we take the 16,000 acres of	
5	value would be just about \$200,000. That	5	Sam Murphy that we we're looking at how	
6	would be if we did the ten year, all	6	to do that, and this 2400-acre tract here	
7	lump sum, it would be just about 50,000	7	in Cahaba River Wildlife Management Area.	
8	for Forever Wild and 150- for Wildlife &	8	MR. CHILDERS: So the ten-year lease	
9	Freshwater Fisheries.	9	is not a statute. That's something that's	
10	CHAIRMAN BLANKENSHIP: Dr. Powers?	10	negotiable, right?	
11	DR. POWERS: Why did y'all decide ten	11	CHAIRMAN BLANKENSHIP: He asked was	
12	years? Because that's all they're willing	12	the the ten-year lease is not set in	
13	to do? Because obviously, my comfort	13	stone, it is something that is still	
14	the longer we could lock this up, the more	14	negotiable with the landowner.	
15	comfortable I would be with entertaining	15	MR. CHILDERS: It's not in statute,	
16	an option like that. So how did y'all	16	it's	
17	wind up with ten years?	17	MR. GAULDIN: No, sir.	
18	CHAIRMAN BLANKENSHIP: Just for the	18	MR. CHILDERS: it's negotiable?	
19	Record, Doug Deaton with Wildlife &	19	The 50-, $150-$, is that for both	
20	Freshwater Fisheries.	20	properties, or is that for one property?	
21	MR. GAULDIN: So Doug's been	21	You said the share is 50- and 150	
22	discussing this.	22	MR. GAULDIN: Just for the Cahaba	
23	CHAIRMAN BLANKENSHIP: Doug?	23	River for a ten-year lease total, it would	
ļ				
1	62 MR. DEATON: So these lease agreements	1	be 197 That's both Wildlife &	64
1	MR. DEATON: So these lease agreements	1	be 197 That's both Wildlife &	64
2	MR. DEATON: So these lease agreements have been annual agreements, so we enter	2	Freshwater Fisheries and Forever Wild	64
2 3	MR. DEATON: So these lease agreements have been annual agreements, so we enter into an agreement year. One thing we've	2 3	Freshwater Fisheries and Forever Wild together.	64
2 3 4	MR. DEATON: So these lease agreements have been annual agreements, so we enter into an agreement year. One thing we've had is we didn't want to entertain a lease	2 3 4	Freshwater Fisheries and Forever Wild together. CHAIRMAN BLANKENSHIP: Mr. Wright?	64
2 3 4 5	MR. DEATON: So these lease agreements have been annual agreements, so we enter into an agreement year. 1	69 land, but it seems like it would be a	1	know that the that's been dropped	71
2	ten-year Band-Aid at least to keep the WMA	2	from the nomination, so that would no	
3	intact.	3	longer be included as a request from the	
4	MR. GAULDIN: Yeah, we think so. Like	4	landowner to be subject of the lease. So	
5	I said before, we're not looking to try to	5	that little square has been dropped from	
6	reach out to new lands and lease those,	6	the request.	
7	incorporate those into our WMA. We're	7	MR. SATTERFIELD: So that will change	
8	just trying to stop the bleeding	8	the acreage?	
9	basically.	9	MS. MCCURDY: Yes, sir.	
10	MR. WRIGHT: And I did some figuring	10	MR. SATTERFIELD: Do we know how much?	
11	here on the figures you just gave us, the	11	MR. DEATON: I believe it's 80 acres.	
12	monetary figures. It looks like it's	12	MR. SATTERFIELD: Eighty acres. And	
13	about what's happening in the area.	13	my second question really sort of relates	
14	MR. GAULDIN: Yeah, there are	14	to what we've been talking about before	
15	appraised values for those per acre leased	15	about how this lease is going to be	
16	land.	16	structured. And I think Patti alluded to	
17	CHAIRMAN BLANKENSHIP:	17	the fact that because you guys are wanting	
18	Mr. Satterfield?	18	to use Pittman-Robertson funds, those	
19	MR. SATTERFIELD: Two quick questions.	19	funds are available for only a specific	
20	One of the pieces of property that appears	20	period of time as I understand, correct,	
21	on the map is an isolated piece down in	21	out of a pot of money?	
22	the southeast area, southeast of the WMA.	22	MR. GAULDIN: (Nods head.)	
23	Do you know how much acreage is in that	23	MR. SATTERFIELD: Which would seem to

GAULDIN: Yeah, when you lease a tract like this that has a particular land owner, sometimes you're going to have a little out piece like that. You'll just have signage in some small piece and some got to look a guy looks at the map closely will be able to hunt that and maybe somebody else won't see it. But that's just part of having acquisition of a certain landowner. Sometimes there's an out piece like that. MS. MCCURDY: Can I provide some</pre>	2 3 4 5 6 7 8 9 10 11 12 13 14 15	<pre>you're wanting to do for a ten-year period or longer, we're going to need to have a lease that augers toward paying the proceeds up front to be able to lock in the assuredness of the Pittman-Robertson funds rather than the paying the leases on an annual basis. Is that my understanding, Patti, of how this will need to work when you're working out the details? MS. MCCURDY: I personally think that is a better course of action to go ahead and tie that down. I think that Wildlife would expect to have at least that more</pre>	72
2 3 4 5 6 7 8 9 10 11 12 113 114 15 16	<pre>property, and how would you manage that totally isolated from the rest of the tract? MR. GAULDIN: Yeah, when you lease a tract like this that has a particular land owner, sometimes you're going to have a little out piece like that. You'll just have signage in some small piece and some got to look a guy looks at the map closely will be able to hunt that and maybe somebody else won't see it. But that's just part of having acquisition of a certain landowner. Sometimes there's an out piece like that. MS. MCCURDY: Can I provide some updated information that Doug just gave</pre>	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	you're wanting to do for a ten-year period or longer, we're going to need to have a lease that augers toward paying the proceeds up front to be able to lock in the assuredness of the Pittman-Robertson funds rather than the paying the leases on an annual basis. Is that my understanding, Patti, of how this will need to work when you're working out the details? MS. MCCURDY: I personally think that is a better course of action to go ahead and tie that down. SATTERFIELD: One of the concerns raised by one of the members, I think it was Dr. Powers last week, about our last meeting was are we if we do this, are we setting are we sort of opening Pandora's box for other landowners wanting to do the same thing in the future to set up the same kind of process, which I couldn't blame them if they were. MR. GAULDIN: Right, right. MR. SATTERFIELD: So aside from this particular WMA, do we have other WMAs across the state that are going to be in the same posture where we have landowners who have signed voluntary leases on an annual basis or whatever where if they see this happening here, they're going to want to perhaps consider asking us to do the	76
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	<pre>discussions? MR. DEATON: At this time, I don't think they have an interest in selling it. It's part of their long-term sale structure. They have to hold it for so long before they can sell off the way their RET is established. That's my understanding. MR. GAULDIN: A lot of the WMA in that area is under recreational lease. I don't believe we own the fee simple title in that area for the land, surrounding properties. MS. MCCURDY: The Forever Wild acreage represented is subject of a long-term recreational lease. I have to double check the number of years left, probably 10. It's a long time. But the surrounding Forever Wild acreage is part of that one of the two long-term recreational leases the program has done.</pre>	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Mr. Satterfield?  2
    list, either one.
                                                                at these properties being brought back up
       CHAIRMAN BLANKENSHIP: But this was
 3
                                                             3
                                                                again, it might be prudent for the Board
                                                                to consider a policy that would establish,
 4
    renominated?
                                                             4
 5
       MS. MCCURDY: Yes.
                                                             5
                                                                say, a minimum period of time -- X number
       CHAIRMAN BLANKENSHIP: It didn't just
                                                                of years -- before it could be back on the
 6
                                                             6
                                                             7
 7
    come back on because --
                                                                short list again, and that's what I would
       MS. MCCURDY: It's come back on.
 8
                                                             8
                                                                like to see if any of the Board members
       CHAIRMAN BLANKENSHIP: The landowner
                                                             9
 9
                                                                might have an interest in discussing that
10
    renominated it after we had rolled -- it
                                                            10
                                                                as a policy.
    had rolled off.
                                                            11
                                                                   MR. WRIGHT: I would like to see us
11
       MR. SATTERFIELD: But there is a
                                                                discuss that but wait until we are in
12
                                                            12
    process from the time that the landowner
                                                            13
                                                                general discussion.
13
    nominates it for it to appear on this
                                                            14
                                                                   MS. MCCURDY: Okay. Move on through
14
                                                            15
                                                                the short list. Then we'll return to that
15
    list, right? Because we have a lot of
    other nominated properties that for
                                                            16
                                                                in general discussion. Would that be
16
    whatever reason have never appeared on the
                                                            17
                                                                okay, Mr. Satterfield?
17
    list.
                                                            18
                                                                   MR. SATTERFIELD: Yes.
18
       MS. MCCURDY: Yes. It depends on
                                                                   MS. MCCURDY: Okay. I'll make a note.
19
                                                            19
    their score, and it would have had a
20
                                                            20
                                                                If I forget, please remind me, and I'll
    higher score than something else.
                                                            21
                                                                bring that back up.
21
22
          To also explain for the Board, you
                                                            22
                                                                   MR. SATTERFIELD: Thank you.
23
    will see in the listing that sometimes a
                                                            2.3
                                                                   MS. MCCURDY: Again, the next property
                                                       82
                                                                                                                   84
1
    certain category in a certain district may
                                                            1
                                                                was the Butler Foster Praytor Mountains in
 2
    have no properties, it may only have one
                                                             2
                                                                Jefferson County; Cahaba WMA-Falling Rock
 3
    property, it may have only two properties.
                                                             3
                                                                Addition, Bibb and Shelby Counties;
 4
    So a property that might not achieve an
                                                             4
                                                                Coldwater Mountain-Robertson Addition,
 5
    exceedingly high score can still be
                                                             5
                                                                Calhoun County; Freedom Hills WMA-Boddie
    available to the Board through the short
                                                                Addition, Colbert County; Lowndes
 6
                                                             6
 7
    list. If the Board would like to take
                                                             7
                                                                WMA-Fuzzell Addition, Lowndes County;
 8
    action to direct the staff to treat
                                                             8
                                                                Martin Slough Tract, Hale County; Minamac
    nominations that roll off in another
                                                                Wildflower Bog, Baldwin County; Natural
 9
                                                             9
    manner, we can certainly bring that up and
                                                                Bridge Park, Winston County; Oak Mountain
10
                                                            10
11
    you can make a motion in general
                                                            11
                                                                State Park-Odess Addition, Shelby County;
    discussion if you'd like to make a
                                                            12
                                                                Persimmon Knob, Morgan County.
12
                                                                   MR. CHILDERS: Patti, I'd like to come
13
    proposal.
                                                            13
       MR. SATTERFIELD: Well, sort of
                                                            14
                                                                back in general discussion to that one.
14
    hearkening back to the discussion we had
                                                            15
                                                                   MS. MCCURDY: Yes, sir. Please remind
15
    when we set the policy to rotate off after
                                                                me. Thank you, Mr. Childers.
16
                                                            16
                                                            17
    a certain number of times, we did that at
                                                                      Portland Landing SOA-Donald
17
    least in some consideration of the fact of
                                                            18
                                                                Addition; Saginaw Swamp, Shelby County;
18
    not having to look at those meeting after
                                                            19
                                                                Sipsey River Swamp-Brownville Addition,
19
    meeting after meeting after meeting when
                                                            2.0
                                                                Tuscaloosa and Fayette Counties.
20
    nothing was happening to them and they
                                                                      I do want to take a minute to
                                                            21
21
    were not going to proceed to go forward.
                                                            22
                                                                update the Board on this one. You know,
22
    It seems to me that if we want to be
                                                            23
                                                                this had been subject of an ongoing
23

Г	105	1 [10	7
1	And I don't Commissioner, I	1	MS. MCCURDY: Moratorium. That is a	1
2	don't believe that takes a motion. That's	2	fancy word. Two-year moratorium, I like	
3	not an action to actually acquire a	3	that. Anyway, a two-year moratorium on	
4	property. It's just a procedural step	4	that property. It will not even when	
5	within our process, but I do want to be	5	renominated by the landowner, staff will	
6	sure we have Board consensus and if	6	not automatically in that two-year period	
7	anybody else wants to propose anything	7	take action to score that property until	
8	different than that.	8	first coming to the Board to see whether	
9	Mr. Satterfield?	9	the Board is interested in continuing to	
10	MR. SATTERFIELD: Well, I don't have a	10	consider that property. Okay. Gotcha.	
11	problem with Raymond's proposal. It just	11	And then when we do, we'll add additional	
12	takes more action than what I was	12	detail and compare the renomination to the	
13	proposing, which means it just goes off	13	original nomination to detail whether	
14	and we don't have to deal with it for two	14	there's any change in circumstance.	
15	more years. Otherwise, we have to keep	15	CHAIRMAN BLANKENSHIP: Does that suit	
16	looking at it again over and over and	16	everyone? We'll see if it doesn't work in	
17	over. I was looking for some just simple	17	practice, we can always amend the	
18	process so we can focus on the nominations	18	procedure.	
19	we really want to consider instead of	19	MS. MCCURDY: Absolutely, absolutely.	
20	spending time on potentially dead	20	CHAIRMAN BLANKENSHIP: All right.	
21	projects.	21	MS. MCCURDY: Well, staying on Tab 5b	
22	CHAIRMAN BLANKENSHIP: Would it be	22	because we do have a bit of Tab 5	
23	okay maybe if I proposed an idea maybe	23	business. One nomination that will roll	
20	okay maybe ii i proposed an idea maybe			
-	106	-	10	8
1	that meshes those two things, that if one	1	off after this meeting unless requested	
2	is renominated that has rolled off, you	2	otherwise by the Board we have a short	
3	know, that it still be off the short list	3	list nomination, the Minamac Wildflower	
4	for two years. However, they could	4	Bog Tract, Baldwin County. So without	
5	reflect it on this same memo that this	5	further action, you will not see that	
6	parcel has been renominated, and then if	6	tract in your next packet.	
7	the Board wanted to take action within	7	All right. Well, then, we will	
8	those two years	8	move on, and if you will look now at	
9	MR. SATTERFIELD: Put it on.	9	Tab 5c. As the Board will recall within	
10	CHAIRMAN BLANKENSHIP: then they	10	the by law within a year of tract	
11	could ask them to put it evaluate it	11	acquisition, the staff is to present the	
12	for the short list. That way you have the	12	Board with a management plan. We have	
13	information on this same memo, and then	13	begun to attempt to present these	
14	you'd only have to take action if you	14	management plans to meetings before that	
15	wanted to consider it; is that fair?	15	year would run out to ensure in case there	
16	MR. SATTERFIELD: Yes, that's a	16	are any questions by the Board at one	
17	better	17	meeting that prevents approval or if we	
18	CHAIRMAN BLANKENSHIP: Does that make	18	it's only happened twice before but if	
19	sense?	19	we don't have a quorum, then we've got	
20	MS. MCCURDY: Okay. So once the tract	20	another meeting to take that action. So	
21	has rolled off, there will staff will	21	obviously, these are in the early stages	
22	impose a two-year bar.	22	of tract acquisition, tract development,	
23	MR. SATTERFIELD: Moratorium.	23	tract management so they're fairly broad,	

		I F		
1	but it does give some parameters as to the	1	Tab 5e. That is really just an update to	111
2	management of the tract.	2	let the Board know that since our last	
3	So at this meeting, the tracts	3	meeting, we've had additional meetings and	
4	that we will consider under that rotation	4	conversations with CRATA in relation to	
5	would be the Mobile-Tensaw Delta-The	5	their request for the addition of a fire	
6	Cutoff Addition, Baldwin County. We would	6	tower onto the Yates Lake WMA property.	
7	propose adding that to an existing	7	CRATA members have asked me to ask you if	
8	management plan for the Mobile-Tensaw	8	it would be okay to table further	
9	Delta WMA Complex due to its location and	9	- discussion until the February meeting.	
10	- similar management intentions for that	10	They were busy with some additional trail	
11	tract. And similarly for the Cedar Creek	11	work and wanted to have a little more time	
12	- SOA-Elm Bluff Addition, Dallas County, we	12	for our discussions and just wanted me to	
13	would propose that it be added to the	13	mention that they were still interested	
14	Cedar Creek Special Opportunity Area	14	but they are asking to table discussions	
15	Management Plan. Again, due to location	15	until February. So we'll revisit that in	
16	and similar management intentions for that	16	February.	
17	tract. We've included drafts for the	17	MR. CHILDERS: Move.	
18	Board review. If the Board has any	18	MS. MCCURDY: We don't really have	
19	questions, I'll address those, or with the	19	we don't even have to have a motion. I	
20	help from our Wildlife section and my	20	think they just wanted us to use the word	
21	staff. If the Board approves those plans	21	table. They wanted to be sure that you	
22	as presented in the packet, there is a	22	knew that they had not withdrawn the	
23	proposed motion on Tab 5c.	23	request. They wanted to wait until	
[Tequese. They wanted to wate anoth
